

Micro Commercial Components Corp.

New Product Announcement
Dec.25.2015

MCC Introduces Standard Reverse Recovery Power Modules

Features:

- High power rating up to 250A, 1800V.
- Diversify package offerings
- Rectifier and thyristor combo available
- Low Forward Voltage Drop
- Vacuum soldering process minimizes the voids
- Low Inductance Package

Applications:

- Three phase power supplies
- DC Motor field supplies
- Input rectifiers for variable frequency drivers
- Non-controllable rectifiers for AC/AC converters
- Line rectifiers for transistorized AC motor controllers

Part Numbers:

MD100A16D1	MD60A16D1	MD200A16D2	MD160S16M3
MD100C16D1	MD60C16D1	MD200C16D2	MD200S16M3
MD100K16D1	MD60K16D1	MD200K16D2	MD250S16M3
MD120A16D1	MD70A16D1	MD240C16D2	MD100S16M4
MD120C16D1	MD70C16D1	MD100S16M2	MD50S16M4
MD120K16D1	MD70K16D1	MD60S16M2	MD75S16M4
MD36A16D1	MD165A16D2	MD75S16M2	MD100S16M5
MD36C16D1	MD165C16D2	MD100S16M3	MD130S16M5
MD36K16D1	MD165K16D2	MD130S16M3	MD160S16M5
MD200S16M5		MD250S16M5	

Available:

- Samples are available for delivery upon request
- Standard lead time is 4 weeks typical
